Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

A personal interview was conducted between Applicant, Applicant's representative and Examiner Alemu at the U.S. Patent and Trademark Office on September 14, 2004. During the interview, the claimed subject matter was distinguished from U.S. Patent 6,229,506 to Dawson et al. After review of the applied reference and comparing the subject matter disclosed therein to the subject matter recited in the rejected claims, Examiner Alemu indicated that he would conduct an additional search in light of his further understanding of the claims. Examiner Alemu also tentatively agreed that if the additional search did not

reveal any further applicable references that he would allow the pending claims. Examiner Alemu also indicated that if the application were in condition for allowance that he would correct a minor typographical error in claim 17 by Examiner's Amendment.

Respectfully submitted,
